

MATERIAL CATALOGUE • 2026

Construction aggregates.

Sand, graded stone chips, natural boulder and filling materials—coordinated for projects across Bangladesh.

STRAIGHTFORWARD SUPPLY

The right material. A clear delivery plan.

Every order starts with the application, quantity, delivery location and site access. Grading, source and commercial terms are then confirmed against the project requirement.

01

Define

Share material, volume, location and required delivery date.

02

Confirm

Agree grading, source, price basis and dispatch sequence.

03

Deliver

Coordinate route, receiving contact and site access.

SAND RANGE

Three grades. Three clear applications.

ITC-SAND-PLASTER

Screened Plaster Sand

Fine, clean sand selected for plaster, mortar and smooth finishing.

Fine screened • Plaster & masonry

ITC-SAND-MEDIUM

Medium River Sand

Balanced washed river sand for blockwork and general concrete preparation.

Medium grade • Concrete & blockwork

ITC-SAND-COARSE

Coarse Construction Sand

Low-silt coarse aggregate sand for RCC and structural concrete work.

Coarse grade • RCC applications

BEFORE DISPATCH

Confirm what the job needs.

- ✓ Final grading and source are agreed against the application.
- ✓ Quantity and price basis are confirmed before dispatch.
- ✓ Delivery route and receiving contact are coordinated in advance.

STONE AGGREGATE RANGE

Graded for the work. Selected for the load.

ITC-CHIPS-05-10

Stone Chips 5–10 mm

For drainage layers, precast elements and specified mixes.

ITC-CHIPS-10-20

Stone Chips 10–20 mm

Structural aggregate for RCC slabs, beams, columns and foundations.

ITC-CHIPS-20-40

Stone Chips 20–40 mm

Heavy aggregate for mass concrete, foundations and road sub-base.

ITC-BOULDER-NATURAL

Natural Stone Boulder

For crushing, foundation packing, erosion control and civil work.

FILLING & SUPPLY SUPPORT

Tell us the material, quantity and location.

For crusher dust, selected filling sand or any project-specific aggregate requirement, send the BOQ or a simple description of the work.

ITC-STONE-DUST

Crushed Stone Dust

Crusher fines for paving-bed preparation, controlled compaction and filling.

ITC-FILL-SAND

Selected Filling Sand

For backfilling, plot development, floor-base preparation and earthwork.
